

Bilateral Agreement for the Pannónia Programme

I. General Information

This Bilateral Agreement for the Pannónia Programme (hereinafter: Agreement) signals the profound determination of the partnering higher education institutions (hereinafter: Institutions) to implement mobilities as follows; to cooperate in one-way student mobility from Hungary and exchange of staff in the context of the Pannónia Programme (hereinafter: Programme).

The Programme is funded by the Government of Hungary and is a mobility programme for the higher education sector, to strengthen the international relations of the Hungarian higher education sector. The Programme provides a framework for higher education mobility for inside and outside of Europe as well.

The Programme provides mobility opportunities for students, teachers, researchers, and staff of the Institutions with two main pillars. The first one is a general mobility scholarship for long and short term mobilities for students, teachers, researchers, and staff. The second one is a programme for excellence and is open to students only for long term and blended mobility options.¹

The purpose of the Agreement is to provide a framework for further cooperation in mobility and exchange between the Institutions.

IV. Other and concluding provisions

1. Other specific terms⁴

Pannónia Programme is primarily a student focused mobility programme, ca. 70% of the budget is for student mobility, and supports staff mobilities in proportion of realized student mobilities.

For students:

Pannónia Programme for students is a “one-way” mobility programme, it funds outgoing mobility of students studying in Hungary, but it does not offer grants for incoming student mobility to Hungary.

The Pannónia Partner agrees on receiving incoming students from the University of Miskolc, and charges no fees, in the case of incoming mobile students for tuition, registration, examinations or access to laboratory and library facilities.

Transcript of Records will be issued by the receiving institution no later than 5 weeks after the assessment period has finished at the receiving HEI.

For staff:

Pannónia Programme for university staff is a “two-way” mobility programme, it funds incoming and outgoing mobilities. The University of Miskolc, as the beneficiary HEI, will be responsible for the grant payments for both incoming and outgoing staff mobility. Staff mobilities can be realized according to the available budget.

2. Modification and termination of the Agreement

- This Agreement may be amended only with the consent of both Institutions.

⁴ If the Institutions wish to specify additional conditions, they can do so in this section.

- Termination of this Agreement may be initiated by either Institution but shall take effect within one calendar year of the date of such initiation.
- This Agreement shall enter into force upon signature⁵ by both Institutions.
