42 responses

If your answer is no for the previous question, please specify

3 responses

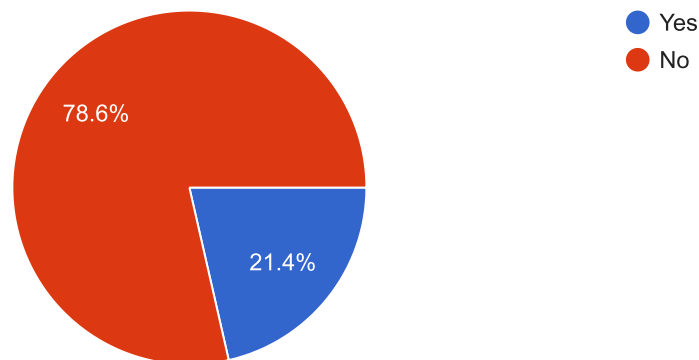

Similar

-

I had no subjects in the last semester.

iv. Did the COVID situation affect your knowledge gained from the subject?

42 responses

If your answer is yes for the previous question, please specify

9 responses

some time I need more information and clarifications

Delay in research work (experimentation)

I am needing more practical work which is not supported by online training

-

I missed the lab. work that I should have been done

In physical learning we had more discussion and the flow of information is better

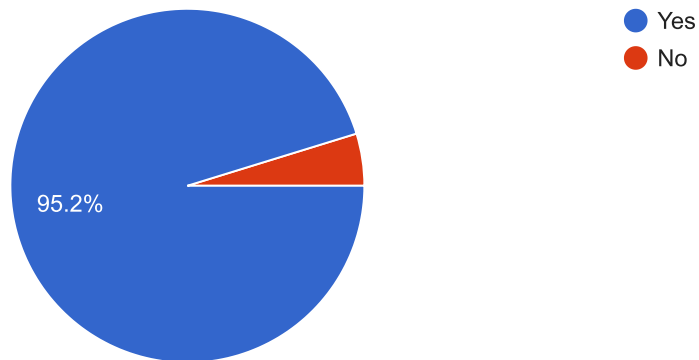

Some of the lectures cannot give the right knowledge via remote learning, because some problems cannot be solved by reading a book, some of them need guidance.

The possibility of the measurments.

i had the time to studv more

Were you able to consult your supervisor properly during the spring semester?

42 responses

If your answer is no for the previous question, please specify

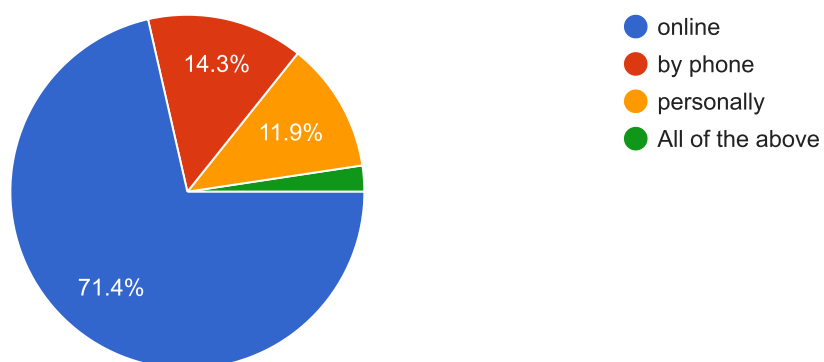

2 responses

-

I could, but cannot choose yes due to some technical issue.

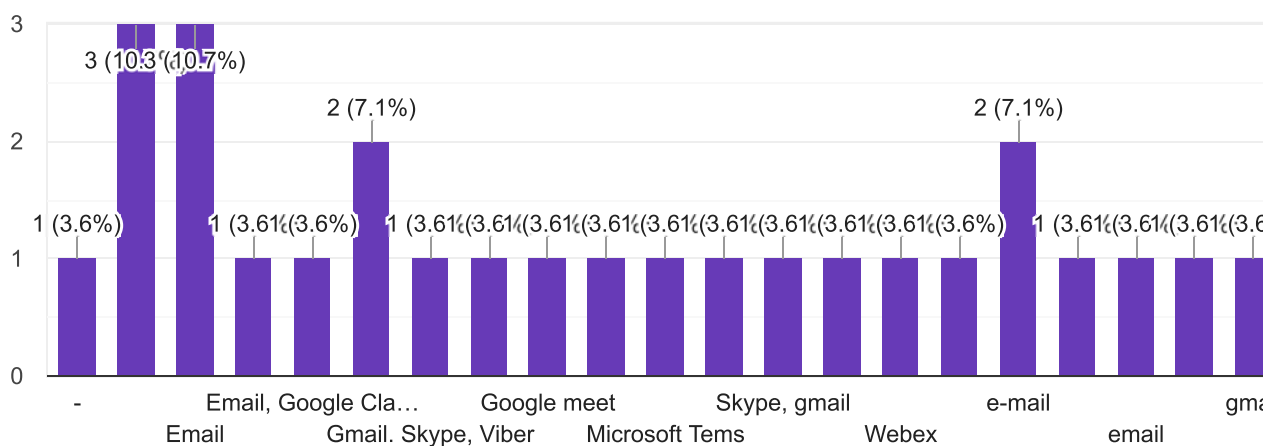

How did you keep in touch with your supervisor?

42 responses

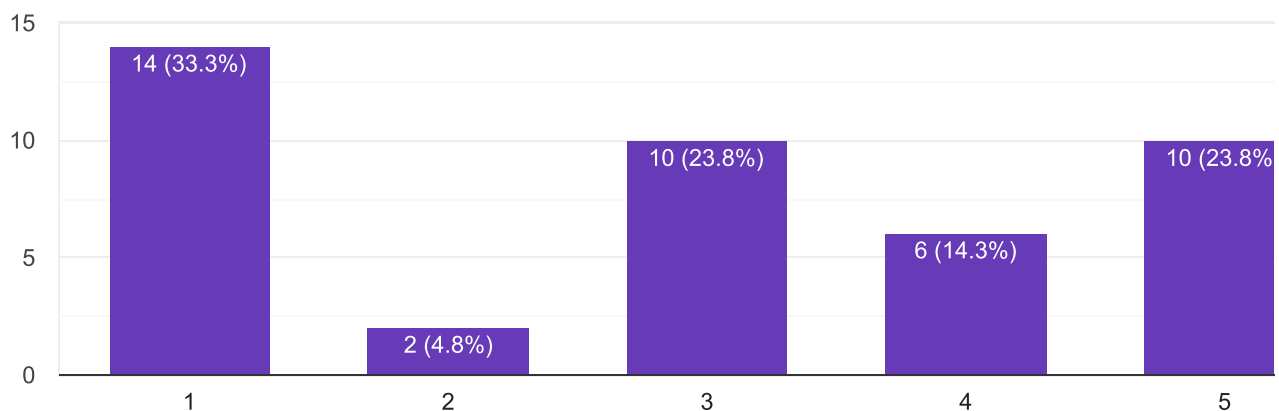

If you communicated online what platform was used?

28 responses

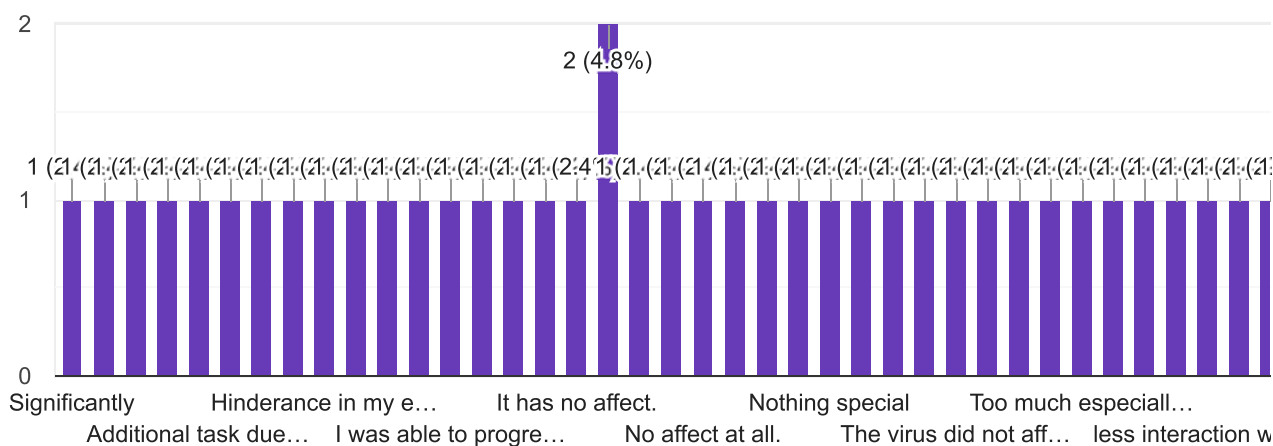

To what extent did the closure of the university hinder your experiments and laboratory work related to your research topic?

42 responses

How did COVID situation affect the progress of your research?

42 responses

What suggestion do you have in case the university will be closed similarly to students in the next semester due to the coronavirus situation? How could the Doctoral School help with its work?

19 responses

The online consulting opportunities can help a lot for the students. A systematic online consulting plan could be given for the semester.

I think we can get the lectures online but laboratories of the university must be open for the students who have experiments work on their research topic.

Although the last semester was fine for me, in my opinion a regular online meeting (e.g. using MS Teams) would be good to have (e.g. in every second week).

Online education, flexible management of research progress.

provide protection equipment like mask and keep distance between students.

Keep the students updated, organise online conferences

A második oldal első első 7 kérdését kérem ne vegyék figyelembe! Komplex vizsga után nem voltak tantárgyaim, de nem lehet kihagyni a kérdéseket.

Továbbá alkalmazásban állok az Egyetemen ezért a korona alatt is bejárhattam dolgozni/kutatni így
